

The 13<sup>th</sup> edition of the **International Conference on e-Society** was held in Funchal, Madeira (Portugal), during **14 – 16 March, 2015**.

This event concentrated on the main areas of concern within the Information Society. This conference covered both the technical as well as the non-technical aspects of the Information Society. The conference broad areas of interest were: e-Society and Digital Divide, e-Business / e-Commerce, eLearning, New Media and e-Society, Digital Services in e-Society, e-Government /e-Governance, e-Health, Information Systems, and Information Management.

This 13th edition received 115 submissions from more than 28 countries. Every submission had been blindly evaluated by an average of four independent reviewers, to ensure the final high standard of the accepted submissions. Therefore, out of the papers submitted, only 27 received blind referee ratings that signified acceptability for publication as full papers meaning an acceptance rate of 24%, while some others were published as short papers, reflection papers and posters.

Extended versions of the best papers were selected to be published in:

- ❖ the Interactive Technology and Smart Education (ITSE) journal (ISSN: 1741-5659)

- ❖ the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641

In addition to the presentation of papers, this event also included a keynote presentation given by Dr. Gitte Bang Stald, Associate Professor, IT University of Copenhagen, Denmark and an Invited Speech by Jonathan Bishop, Principal Researcher & Developer, Centre for Research into Online Communities and E-Learning Systems, Wales.

#### Keynote Presentation:

### EVOLUTION OR REVOLUTION? DIFFUSION AND ADAPTATION OF (SMART) MOBILE PHONES AMONG CHILDREN AND ADOLESCENTS

by Dr. Gitte Bang Stald, Associate Professor, IT University of Copenhagen, Denmark

#### Invited Talk:

### THE MISREPRESENTATION OF DIGITAL TEENS AS TROLLS: CONSIDERING POLITICAL, NEWS AND FEMINIST AGENDAS

by Jonathan Bishop, Principal Researcher & Developer, Centre for Research into Online Communities and E-Learning Systems, Wales

In general, this edition offered once again a great opportunity to all their participants to discuss with success the most significant aspects regarding the theme e-Society. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Information Systems.

The e-Society Conference 2015 was published in hard copy (ISBN: 978-989-8533-32-6) by IADIS Press.
