

The 20th edition of the **International Conference on e-Society** was held virtually, during **12 – 14 March, 2022**.

This conference was organized by the International Association for Development of the Information Society (IADIS).

This event focused on the main areas within Information Society. It covered both the technical as well as the non-technical aspects of the Information Society. The conference broad areas of interest were: e-Government / e-Governance, e-Business / e-Commerce, Technology and Society, e-Learning, New Media and E-Society, e-Health, Information Systems, and Information Management.

The e-Society 2022 was published jointly with 18th International Conference on Mobile Learning (ML 2022). These events received 152 submissions from more than 28 countries. Each submission was anonymously reviewed by an average of 4 independent reviewers, to ensure the final high standard of the accepted submissions. Out of the papers submitted, 27 received blind referee ratings that signified acceptability for publication as full papers (acceptance rate of 18%), while some others were published as short and reflection papers.

Extended versions of the best papers were selected to be published in:

- ❖ the Interactive Technology and Smart Education (ITSE) journal (ISSN: 1741-5659)

- ❖ the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641

In addition to the papers' presentations, the conference also included one keynote presentation by Professor Pedro Isaias (Information Systems & Technology Management School, The University of New South Wales, Australia).

Keynote Presentation:

MOVING FORWARD IN THE DIGITAL SOCIETY: A CRITICAL PERSPECTIVE ON THE ROLE OF INNOVATIVE TECHNOLOGIES AND TRENDS

by Professor Pedro Isaias (Information Systems & Technology Management School, The University of New South Wales, Australia)

This conference presented once again a great opportunity to all their participants to discuss with success the most significant aspects regarding the theme e-Society. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Information Systems.

The e-Society Conference 2022 was published in hard copy (ISBN: 978-989-8704-38-2) by IADIS Press.
